Year by year our business has increased; this year the increase has been far beyond our expectations; so great has been the increase that we have been compelled to add to our already enormous floor space to make room for the tremendous stocks of Dry Goods, Clothing, Hats, Shoes, Millinery, Hardware, Stoves, Farm Implements, Groceries, Wagons, Buggies, Furniture, &c.

Where pressure water is used this malleable iron pin-extension water front, which has more heating surface than any other, supplies abundance of hot water to all parts of the house. It takes the place of reservoir.

The makers of this excellent stove have sent demonstrators who will be at our store from December 17th to 22nd, to show the excellence and cooking qualities of this Range. It will be a practical demonstration—cooking and baking—and everything done before your eyes, and luncheons will be served during this time, and the edibles will be cooked on the Range and served hot to you.
